

Declaration on Cartel Law

Published by the Executive Office of the DKD at PTB

“Companies and institutions are subject to comprehensive rules of competition law. They must judge for themselves whether they act in compliance with the requirements of this law. As part of the PTB, the DKD offers its corporate members a basis for the professional exchange of opinions and experiences, in compliance with the legal framework of competition law. Meetings of the DKD are not intended to deal with anticompetitive subjects or to provide an opportunity for the creation or promotion of agreements and decisions that are not compliant with cartel law. The DKD will not tolerate any anticompetitive behaviour.”
